STAFF REPORT

TO: Plumas Brophy Fire Protection Dist. Board of Directors
FROM: Art Paquette, Fire Chief
DATE: October 17, 2025
SUBJECT: Station #2 Well Project

Recommendation: Approval and Awarding the Bid from Peters Drilling & Well Service

Background: PBFPD advertise and put out to bid for a New Well Project for Station #2. We received 4 bids and Legal has advise to award Peters Drilling & Well Service the project in the amount of \$47,424.95 (plus any contingency that the district feels appropriate, which can typically range between 0-20%)

Peter's bid is the lowest responsive bid, contains no material irregularities, and Peters is properly licensed and qualified to perform the work as it retains both a Class A General Engineering License and a C-57 Specialty Well Drilling License.

Since Peter's bid is the lowest, and there are no errors that would immediately disqualify them from the Project.

Fiscal Impact: TBD
